

## El Paso's Worst Enemy

All EL PASO is now preparing to fight our most dangerous enemy and already he is getting in his work. Despite the fact that he will be fought for the next few months he will be with us just the same. We have references to the fly, the one serious object on which a fight is being made in all parts of the country. The fly is known to carry many diseases and, as he is so small, you are subject to illness caused by the fly. You will find a few of them in your home unless you are extremely careful. Have you stopped to realize how many flies may have been on the articles you have eaten? Flies carry germs that are dangerous and too much precaution cannot be known in selecting provisions for the table. You ought to know that it has not been touched by a fly.

This market is the only one in El Paso, or the southwest, as far as we know, that maintains its own cold storage plants, has refrigerated cases where meats are kept in a condition that it is impossible for flies to reach. We ask you to visit our market, note the sanitary and modern condition that exists. Then go to the other markets and make the same examinations and you will see why your meat orders should come to this sanitary market.

Our meats are from the choicest of fed cattle. It is the tender and juicy kind and the fact that you pay no more for it than the coarse, tough kind; the fact that we give you the best service possible, not mentioning the perfect sanitary condition, should find your meat orders coming here.

Visit this market and you will be surprised to see that such a modern, sanitary market is conducted in this city.
